NDTA – A New Brand that Incorporates Industry Trends and Expands Association Vision

The voice of Defense Transportation

[Alexandria, VA - November, 13 2009] --- Known internationally for over six decades as the National Defense Transportation Association, the organization has now adopted the moniker, “NDTA” which comes with a tag line: “The Association for Global Logistics and Transportation.”

Individual and Corporate members of the Association can expect to see the branding effort reflected in updated office stationery, brochures, and other documents. The networking and educational activities members have enjoyed over the years will not be changed, but enhanced. In fact, the tag line and shifting focus come directly out of NDTA's Goals and Values, which include listening and acting upon the requests of our members. Industry has put a spotlight on end to end capability and NDTA is keeping stride.

The military, too, has witnessed change along these lines. NDTA President LTG Kenneth R. Wykle, USA (Ret.) cites several examples of the shift: The Air Force has merged the transportation and supply career fields into the Logistics Readiness Officer (LRO) career field. The Army has combined the Transportation, Quartermaster, and Ordnance branches into the Logistics branch. The focal point for Navy logistics planning, transportation/distribution, ordnance, and petroleum is the Naval Operational Logistics Support Center (NOLSC).

NDTA is a non-political, non-profit Association composed of government, military and industry professionals and as such, will officially remain the National Defense Transportation Association, but the tag line: the Association for Global Logistics and Transportation—highlights NDTA's expanded vision. “The Association operates globally with individual members and chapters located around the world; our corporate members have global operations and individual / corporate members are leveraging technology as enablers in providing both logistics and transportation services,” said General Wykle.

The global reach of NDTA is represented by over 9,000 Individual Members and 250 Corporate Members. Any questions about the Association or NDTA's new tag line may be directed to NDTA Public Relations Director Karen Schmitt, or the PR Assistant, Jeff Campbell.
