PROFESSIONAL PANELS & SPECIAL PRESENTATION

MONDAY 9/21

From the Front

Young Leaders from the AOR

See the battlefield through the eyes of young leaders. Hear what they say about their mission in Iraq and Afghanistan. **(Maj Babinski)**

Small Business Development

Doing Business with the Government

As a small business how do you team with the "Big Guys" to increase your revenue flow? Participants will get answers to questions, and also learn about procurement and MORE. **(B. Doornink)**

Beyond DTCI

DOD distribution continues to evolve to take advantage of innovation and to adapt to challenges. The DTCI represents a major step in transforming the DOD's CONUS distribution network. Other initiatives are being considered. This will be an interactive working session to help shape the next steps. **(A. Jones)**

Post Iraq Retrograde, Redeployment & Reset

Discussion will center on the launch of "Responsible Reset", which envisions AMC leveraging the entire capability of the Materiel Enterprise to assist in maintaining asset accountability, visibility, triage, and timely disposition. **(MG Leonard)**

The Changing Face of Defense Travel

Three years ago, the Defense Travel Management Office was launched as the single focal point for commercial travel within the DOD. Learn about changes that are still taking place to ensure best practice. **(P. Mitchell)**

Web 2.0 & Security Best Practice

This session will provide an interactive experience for attendees using Web 2.0 platforms. Discussion topics will center on SCM disruption, how the DOD and other agencies are reacting to emerging technologies, and government-friendly alternatives to YouTube and other popular applications. **(T. Rybeck)**

RFID 2.0 A new technology comes of age

This session will uncover the dramatic impact that RFID 2.0 has had on transportation and logistics in the past 12 months. Active, Passive and RTLS RFID technologies are coming together in a perfect storm of increased performance, decreased cost and stabilized standards. Leading agencies, companies and military branches are just starting to scratch the surface on the benefits of this disruptive technology. **(P. Sweeney)**

TUESDAY 9/22

Personal Property Program

A Commitment to Excellence & Innovation

Senior leaders from SDDC and USTRANSCOM will educate and update attendees on the current state of the Defense Personal Property Program (DP3), lessons learned from the DP3/DPS roll-out, improvement goals, and SDDC status on personal property staff build up since relocation to Scott AFB. **(M. Babiak)**

The New Silk Road

Afghanistan Logistics Support

Experts will address current logistics operations in Afghanistan, including perspectives from stakeholders. Topics include: in-theatre Distribution Operations, process owner of the Northern Distribution Network, and MORE. **(R. Boyle)**

AFRICOM's Adaptive Logistics Network

AFRICOM is breaking the mold on traditional logistics concepts by building a strong government, industry, host country team to meet DOD requirements. Learn about 21st Century logistics support across this vast continent. **(H. Garcia)**

FAR Updates from Carrier or Service Provider

Common Carrier Point of View

This panel concerns recent changes to the Federal Acquisition Regulation (FAR) and the impact to service providers. Topics include: performance-based and mode-neutral initiatives, FAR-based contracts verses tenders, new legislation, Defense Base Act requirements, and compliance with Cost Accounting Standards.

(G. Jorgenson)

Mentoring Session

Learn how to launch a Mentoring Program. Session expectations will be outlined, followed by one-on-one discussion time between Mentors (who provide insight) and Protégés (who share career interests).

(L. Larkin)

National Disaster Logistics Supply

Chain Coordination

Learn about strategies of the Logistics Management Directorate, FEMA program office, responsible for policy, guidance, standards, execution and governance of logistics support, services and operations. The panel will walk-through the National Logistic

Coordinator's and partner roles in coordinating a cohesive disaster logistics response. **(E. Smith)**

Technology for Global Transportation & Logistics

Our world is more interconnected, machines are more intelligent, and technology is rapidly advancing. This panel will discuss the impact that evolving global logistics practices have on diverse platforms, differing country standards, cultural preferences and security. It will also offer perspectives on how technological advances may or may not be used to overcome obstacles. **(L. Viera)**

TUESDAY 9/22

Special Presentation

Round the World in 90 Minutes

USTRANSCOM & DLA Open Dialogue

VADM Harnitchek and MG McHale will summarize the Global presence of their respective commands; daily operations and challenges; the DPO relationship and the teamwork required to most effectively support deployed forces. The majority of the session will be Q's and A's. Bring your questions, engage in dialogue, ensure a spirited discussion. If you do business with USTRANSCOM and/or DLA, this is a "Must Attend" event.

(VADM M. Harnitchek & MG T. McHale)
