

**Course Title: Iraq and Trans Arabian Networks**

**Abstract:**

Government and Industry work closely to manage cargo movements in the Middle East. Where this cooperation occurs in many other routes the focus of the class will be on the Middle East’s Iraq movements and Trans Arabian Networks. The goal will be to explain:

1. The importance of shippers initiating proper declarations on the cargo in advance. (applies worldwide)
2. The effects of errors in declarations
3. The exchanges between the Commercial Contractor, US Military, and US State Department
4. Limitations and Ambiguities in the movement rules
5. Limitations of Federal Acquisition Regulations
6. Differences in route optimizations

**Organization:** Instructor’s Organization Global Logistics Providers LLC

**Website:** Organization Website [www.glplogistics.com](http://www.glplogistics.com)

**Instructor(s):** Instructor’s Name – Michael Chapell

Mike Chapell is President of Global Logistics Providers LLC (“GLP”) and has over 20 years of experience managing international logistics services. His background includes extensive experience working with Government entities and related support services for infrastructure and multimodal international transportation.

Prior to joining GLP, Mr. Chapell’s career started in managing US registered ocean going vessels and expanded into all modes beyond maritime including air, train, and truck on a global basis. The focus continued to expand to include Government interactions and support.
