

**Course Title: Maritime Environmental Law and impact on Global Transport**

**Abstract:** The course will examine current maritime environmental law issues and challenges facing ocean carriers, operators, and shippers. Specifically, the presentation will explore recent law enforcement actions and trends as they pertain to marine pollution and ocean shipping, root causes of pollution incidents, and potential impacts upon both operators and customers of transoceanic vessels. Participants will consider potential impacts on the government contractor and military supply chain.

**Instructor(s):**

Bryant Gardner is a partner with the law firm of Winston & Strawn LLP in Washington, D.C. His practice focuses on maritime and logistics matters, international trade, government contracts, and regulatory compliance in the transportation sector. His clients include ocean carriers and operators, third party logistics providers, ports and marine terminal operators, trucking concerns, and other supply chain contractors.

Allen Black is a partner with the law firm of Winston & Strawn LLP in Washington, D.C. Mr. Black handles a broad range of maritime matters including regulatory issues, cargo and shipping issues, vessel financing and documentation, maritime litigation and arbitration, maritime commercial transactions, marine construction and product liability issues, and general maritime counselling. He is a former U.S. Coast Guard sea-going officer and attorney.
