

# Transforming America's Force Projection Capability:

## Strategic Partner Integration Required

*National Defense Transportation Association, /United States Transportation Command  
Fall Meeting  
Transportation Academy*

John Fasching, David Gable, Jason Trubenbach  
October 2019

# Session Key Points

---

- Understanding U.S. strategic maneuver capability expansion, as a component of force projection, in multi domain, large scale combat operations
  - Windows of opportunity, given:
    - Aging or near-obsolete transportation enablers, recapitalization and modernization
    - Bold and innovative process improvements
    - Implications for policy, practice, law, and organizational culture
- Thinking Through the Effects associated with contested, multi-domain operations (MDO)
  - Army
  - Joint, interagency, intergovernmental, multinational, and commercial (JIIM-C) stakeholders collaboratively preparing to support MDO
- Strategizing and Driving capabilities development and convergence to enable operations in complex, contested hyperactive environments
