

Dear NDTA-USTRANSCOM Fall Meeting 2025 Participant,

As you know, the U.S. Federal Government did not reach a budget agreement and without a Continuing Resolution in-place we must cancel next week's NDTA-USTRANSCOM Fall Meeting. Canceling the Fall Meeting was a difficult decision to make as this meeting is a key component of the planning and preparation for our national security mission. But in this case, we had no alternative, and we wanted to provide participants with as much reaction time as possible.

NDTA and USTRANSCOM have co-sponsored the Fall Meeting since 2013, and our theme for this year's meeting, "Powering Global Deployment & Distribution—Ready, United, Decisive!" serves as a testimony to the past, present, and future need to bring military and industry logistics experts together. Operating in a contested environment will never be easy, and it means our plans and efforts get disrupted. But we continue on. In fact, disruptions like this one make us even more determined to take advantage of every upcoming opportunity to collaborate and engage, including Fall Meeting 2026 in Grapevine, TX.

Very soon, NDTA will reach out to you with detailed guidance regarding the cancellation, registration, hotel rooms and your participation in this year's Fall Meeting. Thank you for your continued support!

Randall Reed
General, USAF
Commander, USTRANSCOM

William A. Brown
Vice Admiral, USN (Ret.)
President and CEO, NDTA
